Lagoon 500 - Photo: Nicolas Claris

CABINS

There are two aft (back) cabins that are vertically positioned with the boat and two forward cabins that are horizontally positioned. The forward cabins enjoy a beautiful bay window directly facing their bed while the aft cabins enjoy a lower bed with a beautiful bay window on the side. The forward cabins are higher up closer to the ceiling. However both cabins have significant head room measuring close to 6ft. There is ample storage space in all cabins consisting of drawers and hanging closet. All four cabins have reading lights, en-suite bathroom with enclosed shower. The interiors are a honey brown pictured right and a light beige as pictured in saloon photos

Forward area for Cocktails, reading, relaxing and sunbathing net, great area for dolphin watching

Separate crew area

Kitchen - Chef area

Forward cabin with en-suite bathroom starboard (right side)

Inside dining and saloon
